WHAT IS VINIPAD?

Vinipad is a **digital menu** designed for **restaurants and hotels** which lets you show in an **intuitive and attractive** way all your **beverages** and your **food menu**

- ☑ **Wine**
- ☑ **Liquor** and **mixed drinks**
- ☑ **Beer**
- ☑ **Cocktails**
- ☑ **Water** and **soft drinks**
- ☑ **Coffee** and **infusions**
- ☑ **Cigars**
- ☑ **Food menu**

EASY TO USE

Our solution is very **intuitive**, both the **tablet app** and the web **administration panel**, from which any person can **comfortably and easily** enter the menu data **from any computer**.

IMPROVE YOUR SALES

With Vinipad our first goal is to **improve the sales** of your business. We manage to improve sales with our wine menu in **more than a 15%**, since showing a wine list in an **attractive and visual medium** ends up **encouraging sales**.

WE INSERT YOUR DATA

If you don't have the time to enter your menu data, we also offer a **data entry service**. Just send us a document with your **current menu** or old paper menu and we will take care of everything, **providing all the relevant information** of each item, as well as **pictures of every bottle**.

KEY FEATURES

- You will be able to **change prices** and add **products** on the fly, which **saves on printing costs and waits**.
- **Offline** mode: It can run **without WiFi or without any Internet connection** whatsoever.
- **QR Code and URL generation** so that your customers can **see your menu from their own smartphones and tablets**.
- **Publishing of your menu in your website**, with or without prices, and **printing of your menu on paper**, in case you need it.
- **Displaying your menu in a TV screen** of your restaurant, thanks to our complimentary **Vinipad Showcase** app for **Android TV & Fire TV sticks**.
- It lets you **highlighting wines or other products** at the beginning of the app, which is a **bargaining tool with your suppliers**.
- It lets you create **sections with custom lists** which group items by different **criteria** and **special promotions**.
- **Controling your stock**, including the stock of **opened bottles**, for wines served **by the glass**. You can also set a **low stock alarm** so the app sends you an **e-mail** when stock reaches a **minimum** and, optionally, items in the app with **no stock** can be made to automatically **disappear**.

AVAILABLE IN ALL THE MAIN TABLET PLATFORMS

[Download on the App Store]
[GET IT ON Google Play]
[Available on amazon appstore]

- Works in **any iPad** from **Apple**
- Also available for **Android tablets**
- Available for **Kindle Fire tablets** from **Amazon**
